

PROGRAMMING & IMPLEMENTATION

Intervention Components

Gain more youth participants in participating HIDTA regions.

Utilize data collected to continue to improve programming.

Develop more innovative technology to reach larger amounts of youth participants.

Employ various local organizations to create an "epicenter" of resources for youth to support lasting long term results.

Individual Determinants

Increase intrinsic motivation towards self-determined goals.

Increase in self-awareness and accountability towards actions or lack of actions.

Increase in resiliency and adaptability to proactively support a positive purpose in life.

Behaviors

Increase number of youth participants in SEL based drug prevention program.

Utilize local resources and partnerships to create a mentor based support system for youth.

GOAL

Decrease in substance abuse amongst youth and increase in purpose of life.
